Forensic Anthropology Test Review Guide Answers by Wordfarm

**Forensic Anthropology Test Review Guide**
Forensic science is the application of science to criminal and civil laws, mainly—on the criminal side—during criminal investigation, as governed by the legal standards of admissible evidence and criminal procedure. Forensic scientists collect, preserve, and analyze scientific evidence during the course of an investigation. While some forensic scientists travel to the scene of the crime ...

Police – Crime-scene investigation and forensic sciences: The first police crime laboratory was established in 1910 in Lyon, France, by Edmond Locard. According to Locard’s “exchange principle,” it is impossible for criminals to escape a crime scene without leaving behind trace evidence that can be used to identify them. That principle gave rise to the forensic sciences, which are the ...

Forensic Science A to Z Challenge (PDF) - Students must use clues to identify forensic science terms and then find them in a "bent word" style word search. They use the letters that remain in the puzzle to figure out a mystery word. Memory Match Game (PDF) - This game challenges a student's ability to remember what they've seen as they examine cards with a variety of patterns on them.

Forensic Science Lesson Plans - The Science Spot
Forensic psychologists offer their professional expertise to aid the judicial system in both civil and criminal matters. Since the psychological assessment of those involved in the legal system is the primary concern of forensic psychologists, it’s incredibly important for those in the field to possess strong clinical skills.
