Grammar And Composition Work Text
When you have written enough to satisfy the requirements of the assignment or you've said all you ought to say about a given topic, it is time to put your paper through the rewriting process. If you are one of those students who compose on a word processor, you're a step ahead of the game; if not, use the process of going from handwritten text to typewritten (word-processed) text as one of the ...

A sentence cast in the passive voice will not always include an agent of the action. For instance if a gorilla crushes a tin can, we could say "The tin can was crushed by the gorilla." But a perfectly good sentence would leave out the gorilla: "The tin can was crushed." Also, when an active sentence with an indirect object is recast in the passive, the indirect object can take on the role of ...

Generative grammar is a linguistic theory that regards grammar as a system of rules that generates exactly those combinations of words that form grammatical sentences in a given language. Noam Chomsky first used the term in relation to the theoretical linguistics of grammar that he developed in the late 1950s. Linguists who follow the generative approach have been called generativists.

Parallelism "The most common problem with bulleted lists is an absence of parallel construction. If the first bulleted item is a declarative sentence in the present tense, the rest should also be declarative sentences in the present tense. Each item must be a continuation of the introductory sentence . . . ." (Bill Walsh, Lapsing Into a Comma. Contemporary Books, 2000)
