A genius is a person who displays exceptional intellectual ability, creative productivity, universality in genres or originality, typically to a degree that is associated with the achievement of new advances in a domain of knowledge. Despite the presence of scholars in many subjects throughout history, many geniuses have shown high achievements in only a single kind of activity.

Genius - Wikipedia
A select group of aspiring marketing and advertising leaders spent their summer taking part in The Marcus Graham Project’s iCR8 boot camp. Read about their two-month journey launching a full-time advertising agency called The Kinxion and tackling a segment marketing challenge—how to speak to Fossil’s male customer and drive sales.

Articles and Techniques
In Roman religion, the genius (Latin: [???n.j?s]; plural geni?) is the individual instance of a general divine nature that is present in every individual person, place, or thing. Much like a guardian angel, the genius would follow each man from the hour of his birth until the day he died. For women, it was the Juno spirit that would accompany each of them.

Genius (mythology) - Wikipedia
Francis Galton’s Hereditary Genius (1869, reissued 1892) claimed to be
the first statistical study of genius. Drawing on data culled from biographies and biographical dictionaries of “eminent” figures, he argued that creative and intellectual exceptionalism was measurable and heritable.
