Journal Of Nursing Administration Peer Review

*2018 Journal Impact Factor was established by dividing the number of articles published in 2016 and 2017 with the number of times they are cited in 2018 based on Google Scholar Citation Index database. If 'X' is the total number of articles published in 2016 and 2017, and 'Y' is the number of times these articles were cited in indexed journals during 2018 then, journal impact factor = Y/X

Welcome to the Chamberlain University Library. Note: A simple database search strategy should begin with the P AND I: Other Questions in Research. In Evidence Based Medicine (EBM), treatments and therapies are called ‘interventions’ and such questions are questions of INTERVENTION.
by Melanie Neumeier, RN. Masters of Nursing Student, Memorial University of Newfoundland and Labrador. Abstract. The high incidence of preventable medical errors in health care is a key factor that has led to pressure on health care organizations to implement electronic medical records (EMRs) as a means to mitigate the issues antecedent to these adverse outcomes.

Clinical peer review, also known as medical peer review is the process by which health care professionals, including those in nursing and pharmacy, evaluate each other's clinical performance. A discipline-specific process may be referenced accordingly (e.g., physician peer review, nursing peer review). Today, clinical peer review is most commonly done in hospitals, but may also occur in other ...
