Leed For Operations Maintenance Reference Guide Introduction by MIT Press

**Leed For Operations Maintenance Reference**

NOTE - This is the longest post in Real Life LEED history. You may groan at the thought of reading the text below, but I assure you it's a much quicker way to get up to speed with the changes in the new LEED 2009 systems then reading through the new reference guide as I did.

**The BIG Review: LEED 2009 Reference Guides Released**

The LEED Professional Exams are administered by the Green Business Certification Inc. (GBCI) for professionals seeking to earn credentials and certificates. The exams test knowledge based on the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating Systems.

Existing Buildings. The LEED Canada EB:O&M 2009 rating system was designed to certify the sustainability of ongoing operations of existing commercial and institutional buildings, i.e. buildings regulated by Subsection 2.1.2 (i.e. Parts 3, 4, 5 and 6) of Canada’s National Building Code.LEED Canada EB:O&M provides owners and operators of existing buildings an entry point into the LEED ...

[Green Associate, BD+C, O+M, ID+C, Homes, ND, WELL AP] Over 130,000 Satisfied Customers! - Transform Your Career

GBES: LEED Training Courses | LEED Exam Prep & GBCI CE Hours
The LEED Submittal Process is a part of the overall LEED Application Process. Specifically, it happens after project registration, after the project administrator assigned credits to project team members, and after those project team members fill out the respective LEED Credits Forms – which means the project is ready to submit this information to the GBCI for review.

So I was browsing through the GBCI's LEED AP directory the other day and noticed how few LEED AP's had a specialty listed next to their status. It's been exactly 7 weeks and one day since 'legacy' LEED AP's were able to upgrade to the new credentialing maintenance program (see my questions and concerns about the benefits of such a move here), and I thought it would be interesting to figure out ...

LEED v4 is here. This latest version of the LEED rating system is “bolder and more specialized for building projects worldwide,” and it features more rigorous standards. While some of the credits and
prerequisites are essentially the same as the 2009 version, there are some significant changes you should know about if a new build or renovation is in your future.
